

REMARKS

Claims 1-41 are pending in the present application.

The Examiner has required election in the present application between:

Group I, claims 28-41, drawn to a semiconductor device, classified in class 257, subclass 428; and

Group II, claims 1-27, drawn to a method of making a semiconductor device, classified in class 438, subclass 1+.

For the purpose of examination of the present application, Applicants provisionally elect, with traverse, Group I, claims 28-41.

TRAVERSAL OF RESTRICTION REQUIREMENT

Applicants traverse the restriction requirement for the following reasons.

The elected invention group II should be examined with the invention group I since they are corresponding apparatus and method claims and the examination of these groups I and II together does not place undue burden on the Examiner, as they have the same search area.

Accordingly, reconsideration of the restriction requirement is requested.
